PLACE:

## PROFILE

"To seek a challenging position where I can utilize my skills and expertise to contribute to the success of the company while advancing my personal and professional growth. I aim to work in a forward-thinking and dynamic team within the IT industry, driving impactful and innovative solutions that address real-world challenges."

## PROJECT

### Healthlink Pro: An Intelligent Integrated Doctor-Patient Relationship Management Platform

By connecting practitioners and streamlining administrative tasks, it ensures seamless communication and equitable access to specialized care nationwide. Our solution addresses challenges like disparate systems, manual workflows, and communication inefficiencies, aiming to transform healthcare delivery for improved outcomes.

### DineAhead: Enhancing Dining with Pre-Order and Reservation Solutions

This project aims to develop an Android-based web application that enhances the dining experience by allowing users to order food, book tables, and manage billing before visiting a restaurant which include user authentication, menu selection, table reservations, and online payment processing, streamlining operations for customers and staff. The app also facilitates easy updates to menus and special offers while providing customization options.

## CO-CURRICULAR

### Hackathon:

- Submitted a project proposal on MSME Women's Hackathon 2023 under the title "**Care Sync**" and eagerly waiting for its result to develop the project.
- Actively participated in intra-college level Hackathon and got selected for Smart India Hackathon 2023 under the title "**W-FI Wave**".

## EXTRA-CURRICULAR

- Participated in Journal level Basket Ball competition.
- Editing

## DECLARATION
